

Thank you for your interest in the Maine Council for Elder Abuse Prevention's (MCEAP) *Elder Abuse: A Community Problem with Community Solutions* presentation. This presentation was created by MCEAP to raise awareness of the serious problem of elder abuse and the many valuable resources that are available in Maine to help those who are affected by it.

MCEAP's goal for this presentation is to provide an overview of the issue of elder abuse including statistics, general information about the different types of elder abuse, and where to go for help. This presentation does not provide profession-specific content, and it does not include information about legal reporting mandates.
